

Tech4Good

Website Design &
Setup

Jordan, Kelly, & Megan
Week of 5/24 Sprint Report

Tech4Good

5/24 Sprint

This first sprint was all about visual design. We each had different visions of the final website influenced by accessibility and audience. In the end, we harnessed the best of all our designs to create the final layout and visual design. Now that the website has a form, we will turn to coding and the next sprints will have a functional website up and running.

01

COMPLETED:

- Home and Event Pages Options (x2)
- Final Layout/Design

02

IN PROGRESS:

- HTML/CSS
- File Setup

03

NEAR FUTURE:

- Scripted Features
 - o Contact Page
 - o Logins

Current Sprint Progress

● Done ● Working on it ● To do

Completed Items for Review

This week we completed the visual design and layout of the site. Each team member presented two different design options of their vision of the Tech4Good website using one of the chosen palettes. As a group, we then chose our favorite design aspects of each design and incorporated that into the final design pages. Kelly was our lead voice on design and Jordan kept us focused from design creep. Throughout this sprint we have also been collecting images and content for the final website as well as testing our HTML code options in preparation for the next sprint.

Future Planning

Now that we have our design and layout, our next steps will be coding the html, and CSS. Each team member has a different page responsibility and by our next meeting, we should have a working visual website for you to explore. After the website is up and running visually, we can start implementing other scripted features such as the forms and logins.
